

CWMTF – Innovative Stormwater Grant PROGRAM CHANGES 2019

The CWMTF application evaluation system (previously known as the Scoring Criteria) is now called the **Application Rating System**.

Innovative Stormwater application guidelines and detailed information on the Application Rating System may be found on the CWMTF website after 12/1/18 at <https://cwmtf.nc.gov/innovative-stormwater-questions-guidelines-rating-system>

Updates for the 2019 Cycle

The Application rating system for ISW projects is essentially unchanged from 2018 aside from a point of clarification regarding educational signage:

- **One (1) point will be given for educational signage at the project site** as part of an applicant's efforts to ensure that project results are broadly distributed. See new language in Section III, B of the Innovative Stormwater Application Rating System document (link above).
